

RUGRAT•HABITAT®

Custom Nurseries & Children's Rooms

QUICK FACTS SHEET

- Rugrat Habitat pioneered the "design-furnish-install" process for children's rooms, believing that translating a thoughtful bedroom design into reality should be fun, efficient and stress-free.
- Rugrat Habitat's customers spend the same with us, as they would have spent without us.
- Express 4-Day Installation is our way of saying that your child's bedroom and your home should not be under construction for more than four days.
- We believe that buying furniture, decorations, and installation services from different vendors is expensive and wasteful of time.
- Rugrat Habitat will fabricate items (furniture, decorations, bedding) that are needed to make your child's Rugrat Habitat personal and specific to your home.
- Getting a Rugrat Habitat is fun, efficient and stress-free.
- Child-proofing is included with every Rugrat Habitat.
- Scheduling an in-home, no-fee, no obligation consultation is the best starting point for creating your child's room.
- You can usually reach us (even on weekends) by calling 877-4RUGRAT.
